SKILLS, HOBBIES & INTERESTS

My hobbies & interests include visiting Old Age Homes & Cheshire Homes & spending time with them. This teaches me to value human. Teaching moral values & conducting creative workshops with platform children helps me discover the talent in them. Sometimes preparing children of Asha Niketan [differently abled children] for their cultural program helps me develop patience & realize the power of team work. I find the real purpose to life when I am able to help vocationally trained under- privileged women get placement or organize a picnic / get-together for them. The smile they wear then is priceless & a great source of encouragement to me.

Living with Passion to serve the society in every possible way is my strength & interest. Visiting new places & learning about the inhabitants there & gardening brings me keep close to the nature. Reading inspirational biographies & case study are my weaknesses that strengthens my self-confidence, improves communication skill & helps me experience leadership. Travelling, long drives & listening to music gives me a unique opportunity for introspection.

Speaking in terms of my experience, I spent nearly thirty years refining my abilities as an educator & motivator using my skills as an organizer & problem solver to help persuade adolescents try new & exciting ways of being productive to self & society. I enjoy every moment of my life. To me LIFE can be best dealt with a SMILE & a positive A T T I T U D E.
